Tools to Support Community Based Ecosystem Management

November 19th & 20th 2008

Instructors

Ken Snyder - Place Matters &
Judy Colby-George - Spatial Alternatives

Who Should Attend?

Day 1: The first day of training will provide managers and planners with basic training in the use of keypad polling and CommunityViz, and examples of the ways these technologies can be used to support land use, ecosystem based management and transportation projects. We will present case studies that highlight the use and integration of scenario planning and public engagement tools on the ground.

Day 2: The second day of training will build skills for GIS specialist in the use of Community Viz applications including conducting dynamic planning and suitability analysis; using Community Viz's Build Out, Time Scope and Common Impacts Wizards; and integrating Land Use Designer and 3D Sketch Tools into GIS.

When and where is the training?

The training will be held Wednesday November 19th and Thursday November 20th at the Wells National Estuarine Research Reserve located a 342 Laudholm Farm Rd. Wells, ME
Directions at: <http://www.wellsreserve.org/map.htm>

How much does the training cost?

The training is only \$25 per day and includes continental breakfast & lunch.

How do I register?

Participants must submit a registration form and payment before the November 17th registration deadline to Zack Steele at zsteele@wellsnerr.org or 207-646-1555 x157. Scholarships are available upon request.
