Removing Draft Contracts	67

The Basics

Do I have to use the contracts module?

During the creation of a Form 471, you will indicate on each FRN how you will be purchasing the requested services:

FRN Contract

How are the services for this FRN being purchased?

Contract information is stored in your Profile; you can add a new Contract at any time. Details about your Tariff and Month-to-Month services will be entered in your FRN.

CONTRACT

TARIFF

MONTH-TO-MONTH

- Contract ***(MOST COMMON CHOICE FOR C1 AND REQUIRED FOR C2)***
 - Yes: If you indicate that the FRN is for contracted services, you will be prompted during the process to refer back to a contract that is listed in the contracts module
- Month-to-Month ***(typically only used for transitions between contracts for C1 services)***
 - No: The contracts module is not required for that FRN
- Tariff ***(rare, but possible for C1)***
 - A tariffed service is a telecommunications service that you purchase at rates regulated by the state regulatory commission and/or the FCC, for which you do not have a signed, written contract.***
 - No: The contracts module is not required for that FRN

When do I use the contracts module?

You can enter contract information in the contracts module during the creation of your FRN, but it is much easier to enter the information in the module first so you do not have to leave the Form 471 mid-process.

Where is the contracts module?

The Contracts Module is a section within your organization's EPC profile.

What if I created a multi-year contract record in a previous funding year?

There is no functionality in the system to edit a contract once it has been submitted.

If you created and submitted a contract in the contracts module for a multi-year contract in a previous year and that contract covers the funding year for which you are filing a new Form 471, use the original contract record.

- If nothing has changed for the existing contract you created and the contract is still in effect through the next funding year, the contract you created may be used again for the next funding year's Form 471 without any further action. Simply refer to it during the creation of the form.
- If information has changed from the existing contract (for example, if you have a contract amendment), you still refer to the existing contract during the creation of the Form 471 but be prepared to submit the documentation of the changes during PIA review.
